

Fuelmaster® saves you money by eliminating the manual tracking of fuel transactions and increasing accountability. Return on investment generally occurs within the first year of operation.

Fuelmaster® engineers and technicians provide the best product support service in the industry. Toll-free support directly to your fuel island, as well as PC to PC training and assistance, saves you time and money.

Fuelmaster® was designed with the user in mind. Its rugged construction and modular design ensure durability and ease of maintenance. A service life of 15 years, or more, can be expected. Extended maintenance contracts are affordable and provide total support for the life of the system.

Fuelmaster® Doesn't stop there! its flexibility permits numerous, diverse uses; e.g. a gate opener, car wash activator, or controlling access to chemicals, to name a few. Consider a Fuelmaster® Fuel Management System... and start saving money today!

Features and Benefits

Credit Cards and Electronic Read / Write Key

Fuelmaster® may be activated by many popular credit cards or by the rugged Prokee®. Prokee®s are great for fleet operations or gas club members, while credit cards may be used for retail sales. Prokee®s are high strength, plastic composite keys containing non-volatile, read/write memory chips, which can be encoded with confidential information to control access to dispensers and streamline product transaction data.

Receipt and Journal Printer

a real-time, onsite journal printer can provide hard copy backups of all transactions. A receipt printer is also available.

Alternative Fuels

Fuelmaster® is a leader in the alternative fuels arena... from CNG to E85! Fuelmaster® can control and measure any liquid or gaseous fuel. Its ease of maintenance and reliability has made Fuelmaster® the choice of leaders in the alternative fuels field.

Inventory Control / Tank Monitor Interface

The addition of a tank monitor interface kit permits automatic reconciliation of tank levels with Fuelmaster®'s declining balance.

Tanker Truck Accountability

Refueling accomplished by tanker trucks may be captured by using a mobile Fuelmaster® FMU2525.

Expandability

the Fuelmaster® systems may be expanded to control an almost limitless number of fueling sites. Each site consists of a master unit and up to eight satellites, each controlling up to 8 hoses.

Warranty

Fuelmaster® is warranted for one year from date of installation or fifteen months from the date of factory shipment.
